

Steps for registering your child for Glenora Preschool through TUIO:

- 1) From our website please choose the link associated with the class you would like to register for. This link will prompt you to fill out a short registration form for that program and you will be charged the one time \$105 non-refundable registration fee. If the class is full, refer to our waitlist link whereby you will be notified if a spot comes available in you preferred class. This initial registration form should only take a couple minutes to complete.
- 2) Upon submission of this registration form, you will receive an email from TUIO that says your form was submitted successfully. **Your spot will be held** in the order that it was submitted.
- 3) Once the Registrar has reviewed all the registration forms and enrolled your child in the class **you will receive an email from TUIO:**
 - This email will have a link to log into your account and set up your preferred payment method for tuition. Please be advised that if you do not set up your payment within 7 days the system will default to the option of lump sum payment by credit card. Your payment options are in the table below. Please note you will need to have a copy of your child birth certificate and health care card available to upload to your child’s registration.
